

Integrate Amazon with Your QuickBooks Account Using Connex

Are you frustrated by different apps that don't talk to each other or QuickBooks? Connex is an all-in-one solution with an automated sync between your Amazon store and QuickBooks Online or QuickBooks Desktop editions. With our signature technology, the powerful Rules Engine, you have the flexibility to map fields to QuickBooks the way you want.

How Connex Automatically Integrates Your Amazon Store with QuickBooks

- **Sync orders** between Amazon and QuickBooks.
- **Sync sales** receipts or invoices.
- **Sync partial and full refunds.**
- **Sync daily summary.**
- **Match deposits** with payouts from Shopify.
- **Sync inventory** updates from QuickBooks.
- **Build assemblies** (QuickBooks Desktop only).
- **Sync Amazon settlement report.**
- **Customize** to your business through custom field mapping and our powerful Rules Engine.
