

Integrate BigCommerce with Your QuickBooks Account Using Connex

Tired of dealing with accounting errors? Reclaim your free time and eliminate errors using Connex, the number one integration for BigCommerce and QuickBooks. Connex offers a robust automation tool that automatically and accurately tracks your sales data. Our solution records sales income, tax, refunds, discounts, shipping and more.

How can Connex help streamline data between BigCommerce and QuickBooks:

Connex is trusted by thousands of ecommerce businesses looking to keep their sales data in sync with QuickBooks Online or Desktop editions. In short, our solution allows sellers to increase productivity and efficiencies, subsequently leading to greater profits. When you can streamline operations, you'll sell smarter and grow faster as a result. In addition, the Connex integration can:

- **Import orders** from BigCommerce to QuickBooks, automatically.
- **Sync inventory and pricing updates** from QuickBooks, avoiding oversells.
- **Create orders as Sales Receipts, Invoices, or Sales Orders* (QuickBooks Desktop only*).**
- **Sync Individual Orders or a Daily Summary Transaction.**
- **Supports Partial or Full Refunds.**
- **Equipped** with flexible advance mapping using our powerful Rules Engine.
- **Build Assemblies (QuickBooks Desktop only).**
- **Integrates** with both QuickBooks Desktop and QuickBooks Online.
