

# Integrate ShipStation with Your QuickBooks Account Using Connex

Are you frustrated by different apps that don't talk to each other or QuickBooks? Connex is an all-in-one solution with an automated two-way sync between ShipStation and QuickBooks Online or QuickBooks Desktop editions. With their signature technology, the powerful Rules Engine, you have flexibility in how you map fields to QuickBooks.

## How Connex integrates ShipStation with QuickBooks

Connex's automated two-way integration between QuickBooks and ShipStation ensures that you have the most up-to-date shipping and tracking information in QuickBooks. Our solution provides a seamless sync of vital sales data to ensure you can fulfill and ship orders on time. Features include:

- **Two-way order sync** between ShipStation and QuickBooks.
- **Split shipment support** - Sync parts of an order that shipped on different days.
- **Sync sales** by channel such as Amazon, Shopify, BigCommerce (25+ integrations available).
- **Shipment status** (e.g. fulfilled or shipped).
- **Shipping and tracking details.**
- **Inventory warehouse information.**
- **Custom fields.**
- **Customer information.**
- **Automatically markup shipping** by carrier by dollar amount or percentage to recuperate shipping costs
