

Integrate WooCommerce with Your QuickBooks Account Using Connex

Tired of dealing with accounting errors? Connex's WooCommerce QuickBooks Integration makes accounting effortless, allowing you to focus on growing your business. With Connex by your side, you can be sure your sales data is consistently up-to-date with QuickBooks Online or Desktop editions.

How can Connex help simplify the sync between WooCommerce and QuickBooks:

The Connex team will help set up the WooCommerce integration with QuickBooks Desktop or Online during onboarding to ensure everything is optimized to suite your business needs. Once you are set up, you will have peace of mind that with Connex you have an automated two-way sync between QuickBooks and your WooCommerce site:

- **Import orders** from WooCommerce to QuickBooks, automatically.
- **Sync inventory and pricing updates** from QuickBooks.
- **Choose Sales Receipts, Invoices, or Sales Orders* (QuickBooks Desktop only*).**
- **Sync Individual Orders or a Daily Summary Transaction.**
- **Supports Partial or Full Refunds.**
- **Deposit matching tool automatically matches deposits with payouts** from Stripe, Shopify, Amazon, Square.
- **Flexible advance mapping** for customization using our powerful Rules Engine.
- **Build Assemblies (QuickBooks Desktop only).**
- **Integrates** with both QuickBooks Desktop and QuickBooks Online.
