

Free Yourself From Data Entry Into QuickBooks

Are you frustrated by different apps that fail to sync your selling channels or QuickBooks? Connex is an all-in-one solution with a two-way sync between your selling channels and QuickBooks Online or QuickBooks Desktop editions. Our signature technology is the powerful Rules Engine, that helps you to automatically map fields to QuickBooks the way you want.

Connex

Connex is easy to set up

No apps or plugins to download. Connex is cloud-based with a simple user-interface, and it's highly customizable. We support QuickBooks Online and the following Desktop editions: Pro, Premier, Enterprise, Wholesale and Manufacturing, and QuickBooks in the Cloud.

Correctly sync orders and inventory from multiple channels to QuickBooks

With Connex you have an automated two-way sync between your selling channels and QuickBooks. You can sync sales receipts, invoices, customers, and inventory. Connex also syncs merchant fees, Amazon fees, refunds, and discounts. Use the Connex Rules Engine to customize how to map your fields to QuickBooks from one or multiple selling channels.

Automatic two-way inventory sync

With our two-way inventory sync you eliminate oversells and overstock. You can also map products, inventory items, services, bundles, kits, and product variants between your sales channels and QuickBooks.

Automatically mark up shipping for additional revenue

Automatically connect your shipping platforms such as ShipStation. Use the Connex Rules Engine to customize whether to mark up shipping by a percentage or dollar amount for each shipping platform.

Multi-currency support

Automatically map currency between your store and QuickBooks with multi-currency support.

Integrations

Connex supports over 25 of the most popular e-commerce, order management, shipping, payment gateway and Customer Relationship Management (CRM) platforms on the market today.

Reduce Tax Liability

Save on taxes by correctly recording your cost of goods sold (COGS) from multiple selling channels. Connex also integrates with TaxJar, Taxify, and QuickBooks Online Automated Sales Tax so you can map taxes correctly to QuickBooks.

JMA Web Technologies dba Sync with Connex is a certified Intuit Developer. Connex is compatible with QuickBooks Online and Desktop editions.

Meet Our Customers

"I love that Connex is flexible, customizable, and reliable. It just works, so I don't ever have to think about syncing my inventory and sales orders from Shopify to Quickbooks. It seems like my accounting team has infinite options for tailoring the connector to our specific needs."

*Kate Harvey,
Founder, Bare Bones Broth*

"The Connex Rules Engine is quite powerful, everything from warehouse assignments to dealer name mapping to sku mapping to sales tax management. Connex is by far the most complete and robust Amazon interface that I have found."

*Mark Carpenter,
Founder, Gentent*

"With Connex we have been able to speed up the process of communication between our sales team and our warehouse, and improve our cashflow. We have grown 600% since we started using Connex"

*Ryan Hamilton,
Operations Manager,
Plus-Plus USA*

"Connex has saved our company thousands of hours and we wouldn't be able to survive without it! The software pays for itself since we were manually processing all our website and Amazon orders into Quickbooks. I highly recommend this for anyone who does a large number of Amazon or Shopify orders! 100% worth every penny!"

*Conrad Martin,
Director of Customer Service,
Breeo*

"Our main reason for using Connex was to save time from doing manual data entry. Connex takes only a few hours to set up and run. My favorite part is that it takes care of all the manual work, and captures all the important details for accounting."

*Emily Imbach,
Founder, Embach Solutions*

"We had no way to communicate QuickBooks with ShipStation. Now Connex has bridged the gap between all of Soap and Paper Factory's outsourced locations. Connex has totally changed our world. We are moving to Amazon, and because of Connex we can!"

*Shannon Burch,
Co-founder, Soap & Paper
Factory*

"Connex allows us to streamline processes through automation [and] handle larger volumes of business with same number of people. Sales are up 24% year-over-year and in July, sales were up 141% over last year. We were able to integrate a \$700,000 acquisition on day one not missing a beat!"

*Tom Tennesen,
Interim CFO, PipeKnife*
